in question was sunk to a depth of 45 feet according to the original estimate, it was found absolutely necessary that it should be deepened 5 feet more to ensure a permanent supply of water, and re-lined with stones the whole depth, as the soil was very loose; that, as the monsoon was approaching, the work could not be stopped at that stage and it was pushed on to completion by the Amildar of the Tadikere Taluk, as otherwise the amount already spent on the well would have been wasted, and the well would have been of no use to the public, and that payment for the work is not yet made awaiting sanction of Government

A

Read: -

Letter No 525 dated

8th May 1902 from the President of the D.F. Board

Kadur circle, stating that an estimate for Rs 475 was

sanctioned by him for sinking a well at Bhavare

here in the Tarikere Taluk from the grant of Rs 3384/-

sanctioned from D.F. General in Proceedings

No 3350-1 of 7th September '99
L72-98

That as only a sum of Rs 283-13 was spent on

the work up to the end of June 1901, a grant of Rs 191

was sanctioned in Proceedings No 3412-20 of 8th 12-01
L729-00

and requesting a further grant of Rs 317 for revetting

the whole depth of the well with stones, as the soil

was found to be loose.

(2) Letter No 31 of 4th July 02 from the same officer stating with reference

(Short note)
etc

* Draft for approval.

Am

The Dewan
through the
M.D. Councillor.

(sl 63)

U.

(Shan copy put up)

to the office No. 19546 (A)
272 75

(5677)

28th Nov 1902, that the
work has been reported
to have been completed
and submitting a
revised estimate
for £732 for the work.

3. Letter No 2438 3rd Nov 1902 from the
same office, furnishing, both reference to the
Office No 3153 d 3rd Nov 1902, explanation for having
exceeded thereon: - unapproved excess expenses
reference on the well in
question.

The revised
estimate for £732 for
further work & labour
due in the Tunkhore Taluk
is enclosed.

2) The balance
£342 still to be paid
will, as a special case,
be met from L. fund.

This has to be submitted
to the Executive who passed
the order of 3/12/01

24th Dec 1902
to the P.M. 2240 in the
with due to Sir...
...
...
6906
6902

91 a general sanction 29/7
M-1. Such work
is about 1000
have been done
increasing in spite
of the reference to orders
that officers concerned
of the responsibility
knowing that personal
the fact have
been obtained
before

was accordingly done so.

The amildar of the Zarikere Taluk reports that there is 8 ft of good water at this season of the year, that the villagers are using it and that the soil at the bottom having been found to be very loose, the whole depth of 50 ft was found to be revetted with stones, to which a revised estimate is submitted for sanction.

The above revised estimate together with the marginally noted enclosures is herewith sent with a request that a further grant of Rs 317/- may be kindly sanctioned from Local Funds General, as the grant of

- 1 Original Estimate for Rs 475/-
- 2 Comparative Statement
- 3 Abstract of the revised Estimate
- 4 Plan of the well

* Vide L. B. 3201 Sl. 12 Rs 191/- available for this work, sanctioned in G.O. No. 8412-20 of the 27. 29-00 of the 3rd December 1901 is only for the balance of work as per original estimate.

I have the honor to be,
Sir,
your most obedient servant,
W. L. Parker
President of the
Local Funds Board
Madam Cicle

no: ⁺9177-85 dated 8th February 1896, by
L7 137-92
B. K. Venkataradiengar the then Deputy
Commissioner and President, Sanctioned
an Estimate for Rs 475/- out of the
local funds general grant of Rs 3384/-
sanctioned in government Order No
3350-7 of the 7th September 1900. A sum
of Rs 283-13-0 was spent on the wellwork
during the year 1900-1901 and the work
was brought on the list of incomplete
works submitted to government and
for the completion of which a grant of
Rs 191/- was sanctioned in government
Order No 8412-20 dated 3rd December
1901. When the work was carried out to
a depth of 45 feet as per original
Estimate, it was found absolutely
necessary that the well should be
deepened 5 feet more to ensure a
permanent supply of water for the
use of the public and to revet
with stones the whole depth of 50 feet
as the soil was very loose. A revised
estimate was therefore prepared
and submitted to government for
sanction with this office letter no 825

do (marked B)

do (marked C)

of 11.12.1902. As the masonry
was approaching the work could
not be stopped at that stage
and it was therefore pushed on to
completion to avoid loss to Government.
But payment is not yet made awaiting
Government sanction.

From the above it may be observed
that owing to some unforeseen circum-
stances the additional work had to be
undertaken by the Local Builder to
prevent the loss of the amount already
spent and in the interest of the
public.

I have the honor to be,
Sir
your most obedient servant

B. J. S.
President of the
